

WHERE DO PROFESSORS COME FROM?

You may think...

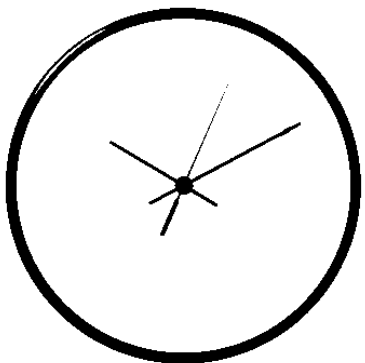

1 BORN THAT WAY

...they are “born that way,” fully-formed, with glasses, no time, and a repertoire of catchphrases like “educational objective.”

2 SLOW PROCESS

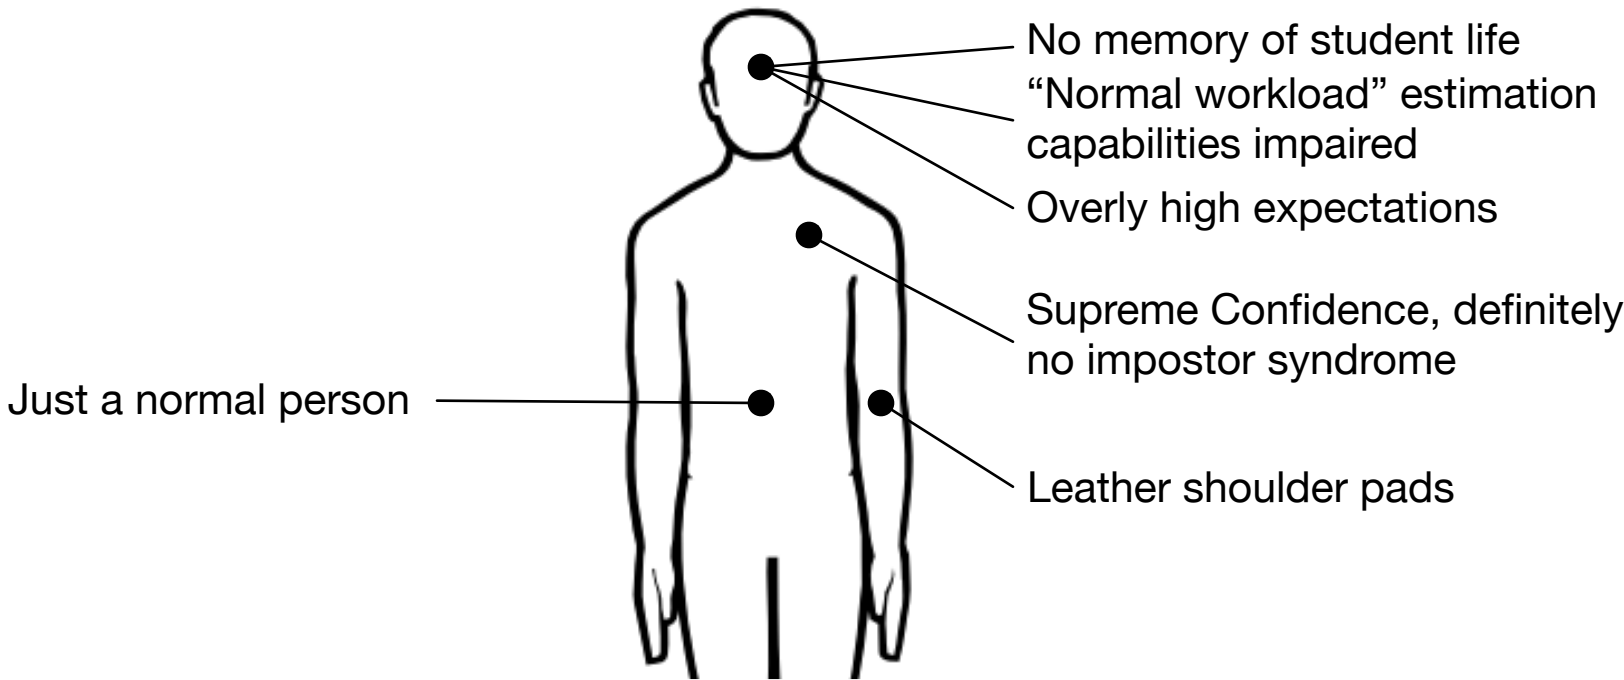

...or the transformation to professor is gradual, fraught with crippling self-doubt and fear of failure.

but these are **COMMON MISCONCEPTIONS!**

It's an **INJECTION!** instantaneous and **painless.**

BEFORE ◯ —————> **AFTER**

So, if your professor is acting strange, remember they have had this treatment, and no longer function like a normal human being with normal human problems and emotions.

* A similar treatment is also available for parents.
